## I. HOW CJ WORKS/THE WORKFLOW OF CJ

CJ Dropshipping is the best dropshipping supplier and solution for dropshippers. It can be considered as a combination of Oberlo and AliExpress. You can connect your Shopify, WooCommerce, eBay, Lazada, Shopee store and ShipStation, and use CJ automatic order processing system.

It is also a comprehensive platform to help every dropshippers from start to success, including product sourcing, warehousing, order processing and shipping, literally every aspect involved.

To make it more clear, we create a simple flowchart to cover the main steps:

## II. GET STARTED

Dropshipping is an extremely popular business model for new entrepreneurs, especially Gen Xers and Millennials. Because it does not need a high-level financial capacity. It cuts operational costs as well as saves your time. Therefore, you can focus all of your efforts on customer acquisitions. You don't need to stock or handle any items you are selling.

Authorization Success! CJ will help you make dropshipping business much easier:

## 1. Authorization

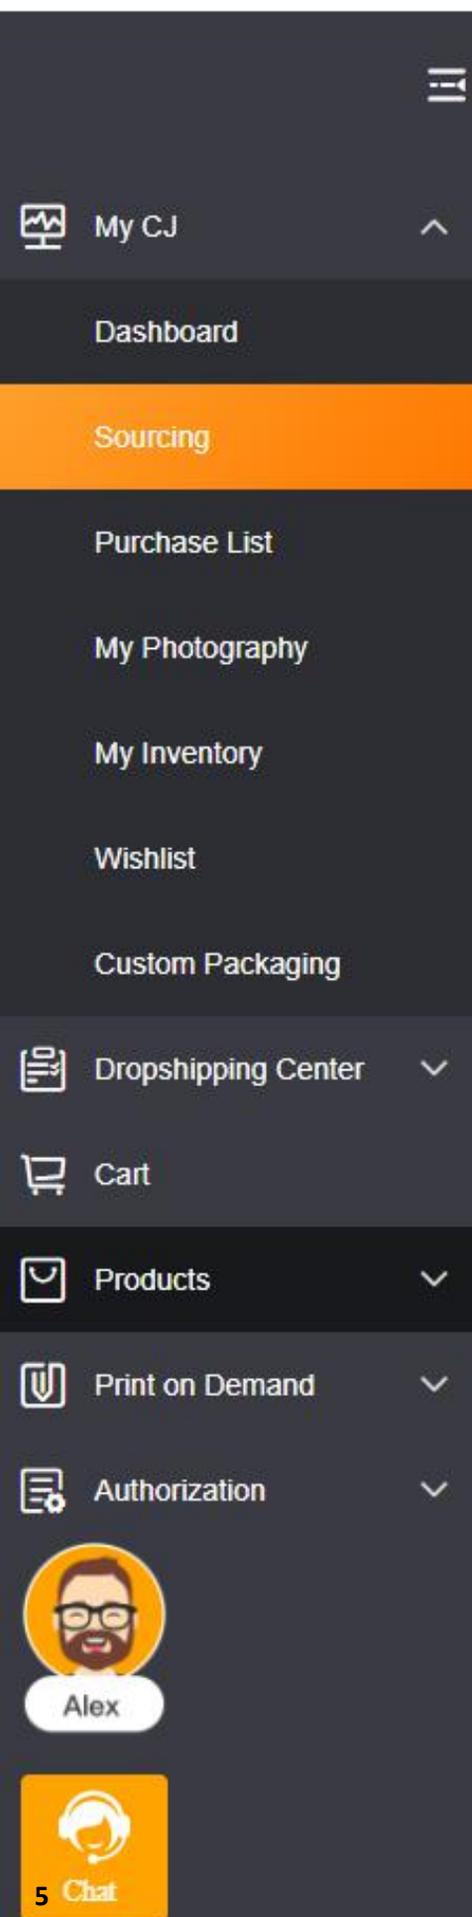

### The advantages of authorizing your online stores to CJ:

1. Easily post sourcing request regarding the existing items in your store;
2. Connect the items in your store to your sourcing results on CJ;
3. Automatically synchronize your orders to CJ for processing.

### Steps for store authorization:

1. Log in to your CJ account, and find the “My CJ” on the navigation bar and click it.
2. Then find and click “Authorization.”
3. Choose the platform you want to connect with CJ.

| Shopify     | <a href="#">How to Connect Shopify to CJ APP?</a>     |
| WooCommerce | <a href="#">How to Connect WooCommerce to CJ APP?</a> |
| eBay        | <a href="#">How to Connect eBay to CJ APP?</a>        |
| Shopee      | <a href="#">How to Connect Shopee to CJ APP?</a>      |
| ShipStation | <a href="#">How to Connect ShipStation to CJ APP?</a> |
| Lazada      | <a href="#">How to Connect Lazada to CJ APP?</a>      |

## 2. Sourcing

### • What is a sourcing request?

If you couldn't find the goods you want through CJ searching engine, you can post a sourcing list. Sourcing offers a solution when you do not find your preferred products on the CJ platform. After you post a sourcing request, we will try to add the product to the platform. Then you can list it to your store for sale.

### • Steps to post a sourcing request to CJ:

- Click "Sourcing" on the home page;
- Click "Post Sourcing Request" on the top right corner;
- Store Existing Products/Individual Products;
- Enter the necessary information > Submit;
- Check the request.

**Note:** CJ has a new feature of sourcing by image

## 10. Google Extension

- **How to use CJ chrome extension?**

You may plan to switch to 1688 and Taobao because they are much cheaper. But both of them are Chinese sites, and they do not sell goods neither out of China nor dropshipping out of China. In this case, you can use CJ Dropshipping Extension in Google Chrome instead. Here are the main steps:

1. Installation

- a. Install the extension from Google Web Store.

- b. Visit CJ and click "Go To 1688/Go To Taobao/Go To AliExpress"

2. Registration/Log in

Post sourcing request. Click "Go To 1688/Go To Taobao/Go To AliExpress" to search the products.

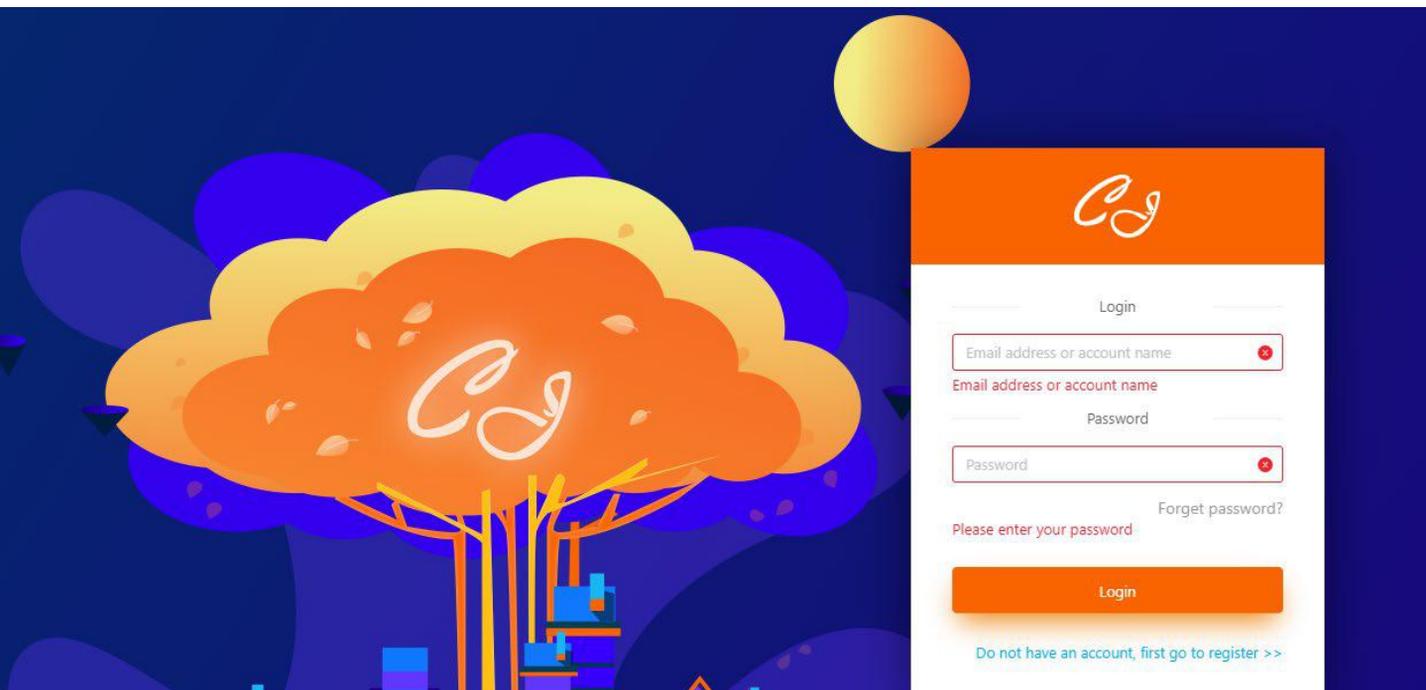

3. Check sourcing status.

- **New features:**

We are glad to inform you that CJ Chrome Extension has been updated to support the new features. Further updates are expected in the future. The main steps are as follows:

- Click the extension icon > Manage Extensions.
- Turn on "Developer mode" > Click "Update."

### III. ORDER FULFILLMENT

CJ Dropshipping provides fulfillment service, which allows you to ship your own products to CJ warehouses and we pack and ship for you. Wherever your goods are, you can send them to our China warehouses and US warehouses.

## 1. Place Orders

### • **Automatically-placed dropshipping orders:**

When you authorize the store to CJ, CJ can automatically handle the orders in your shop, ship for you and send the tracking numbers to your customers. The main steps are as follows:

1. Authorize stores: My CJ > Authorization;
2. Connect products: a. Automatic connection b. Sourcing request c. Listing;
3. Store orders synced by CJ;
4. Payment.

### • **Manually-placed dropshipping orders:**

- a. Go to Dropshipping Center;
- b. Choose a product;
- c. Confirm the product in the shopping cart;
- d. Fill in the shipping information;
- e. Add to cart and pay.

**Note:** steps are the same when you want to place a sample or testing order.

More to read: [How to Place a Manual Order?](#)

### • **How to sync store orders?**

Orders will be automatically synced to CJ if you have authorized your store to CJ and connected your products with CJ's. However, the synced orders may fail to appear on the CJ platform. Then you need to sync the orders manually. Here are two ways:

#### 1. Sync from all stores.

- a. Click Sync Store Ordes > choose all stores > Sync now.
- b. Check orders on the Orders or Invalid Orders respectively.

#### 2. Set optional stores.

- a. Choose "Time" to select a date.
- b. Choose "Order Number" to enter your store order number.

#### 3. Check orders on the Orders or Invalid Orders respectively.

More to read: [How to Proceed When Shopify Orders Syncing Failed?](#)

- **How to deal with invalid orders?**

Orders unable to be synced will be categorized as invalid orders. Wrong connections can be the causes, so you need to re-connect the products in your orders to process them. Here are the main steps:

1. Imported Orders > Invalid Orders > Click the icon under Action;
2. Search the product both in your store and on our platform;
3. Pin the product > Connect;
4. Update the order > Check it in Orders.

- **How to import orders through Excel or CSV?**

If you do not have a store or website connected with our platform, your orders still can be dealt with through importing Excel file manually.

Here are the general steps.

1. Login in your CJ account > Dropshipping Center > Imported Orders >

Click the icon  ;

2. Click "Download" to download our template;
3. Open the Excel File at the bottom and enter necessary order information;
4. Go back to My CJ > Import Orders > Upload the edited Excel.

- **Main differences between CJPacket Ordinary/Sensitive and Fast Line:**

1. CJPacket Ordinary/Sensitive is the most cost-effective. It has a good delivery time and affordable.
2. CJPacket Fast Line focuses on the fast delivery time but not the cost.

More to read: [CJPacket Ordinary VS CJPacket Sensitive](#)

- **Steps to set a default shipping method:**

A default shipping method will help avoid repeated clicks when your store orders come into CJ. All orders meeting the requirements will have a shipping method automatically as what you set. You can set the default shipping methods for two situations:

1. Set for your store;
  - a. Go to the Authorization page, and click "Store Logistics;"
  - b. Click "Add Shipping Method." You can add 3 shipping methods at most.
  - c. Select the priority and save.
2. Set for your products.
  - a. Go to Products > Shipping Method, and click the gear icon;
  - b. Click "Add Shipping Method" and select one to add;
  - c. Set the priority and save.
